	The series of imaginary lines that circle Earth parallel to the equator; on a map, they run horizontally.
	The series of imaginary lines that run north and south from one pole to another; on a map, they run vertically.
19.	The term we use to refer to lines of longitude.
20.	The location of a place as described by places near it.

Answer Key

- 1. Hemisphere
- 2. Grid
- 3. Absolute Location
- 4. Human-Environment Interaction
- 5. Equator
- 6. Tropic of Capricorn
- 7. Antarctic Circle
- 8. Location
- 9. Parallel
- 10. Place
- 11. Arctic Circle
- 12. Movement
- 13. Regions
- 14. Degree
- 15. Tropic of Cancer
- 16. Prime Meridian
- 17. Latitude
- 18. Longitude
- 19. Meridian
- 20. Relative Location
